

TELEMEDICINE

Privileged acces for the military community

Talk to a healthcare professionnal
without having to go anywhere.

Quick access
at any time of the day.

Avoid waiting
in emergency rooms.

Renew certain
prescriptions.

WHAT IS TELEMEDICINE?

Telemedicine uses telecommunications technology to provide health care. These are text or video consultations, with nurse practitioners and physicians for episodic care needs, including prescription renewals, laboratory requests, and specialist referrals as needed.

Invest in your health...

Annual subscription plan:

\$14.99 + tx / month
